

VOLUME V-9, SEPTEMBER 2020

From the Editor:

September – Wow, where has the time gone? This pandemic reminds me of the movie “Ground Hog Day”.

For the next 5 months, the only places I can go are doctor visits and once a month quick trips to a grocery. I do let my fingers walk across the keyboard though to order all kinds of stuff. I know many of you are into Flamingo-mania now – preparing for the 2021 Red Hat Society International Convention. **CHALLENGE:** Including Flamingo items, what is the most outrageous, the most practical, the funniest, the most useless item(s) you have purchased on-line? Let me know (with a photo if you can) and it will appear in the Oct newsletter.

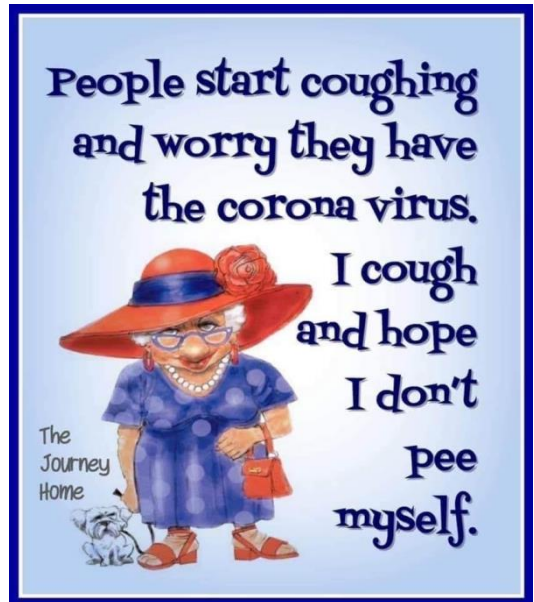

Are you decorating your house for October (Halloween)? Do it early and send me a photo. Are you making some Halloween crafts, cookies, etc.? Send me some photos before the end of Sep for the Oct issue.

Check out the beaucoup shopping opportunities in this issue. If you signed up for RH events, check with the hostess to be sure the event is still a “go”. Take plenty of hand wipes with you and wipe everything down in your room, at your table, door knobs, elevator doors.... Take some disposable rubber gloves with you. Have fun and keep on Hattin’!

MONTHLY 1st Wednesday Lunch in Maryland

In Memoriam

Lorraine Louise Biernat, maiden name Dernoga, 77, of Glen Burnie, passed away on Friday, May 29, 2020 in her home. Lorraine was born on August 13, 1942, in Baltimore, Maryland, to the late Agnes and Joseph Dernoga.

She worked as a Registered Nurse at Baltimore Washington Medical Center (formerly North Arundel Hospital) for 23 years, and Harbor Hospital for 5 years. Lorraine was a member of Holy Trinity Catholic Church Sodality and the Red Hat Society. She was creative and passionate; she enjoyed gardening, painting, fishing, and boating.

Lorraine was predeceased by her devoted husband, Edward J. Biernat, and her dear sons, Gene Miller and Joseph Miller. She is survived by her loving son, Dennis P. Miller and his wife Mary; her cherished grandchildren, Holly Rogers, Dennis Miller Jr., Benjamin Miller, Randall Miller, Andrew Miller, Joseph Miller, and Heather Miller; her beloved great-grandchildren Talia Edwards and Mira Rogers.

In lieu of flowers, the family requests memorial contributions in Lorraine's name be made to the Pulmonary Hypertension Association at www.phassociation.org.

Submit "In Memoriams":

I heard of Lorraine's passing (see above) from a non-RH friend on Facebook when I sent Lorraine a Happy Birthday message. What a shock to learn she had passed away two months earlier.

When you hear of the passing of a RH sister, please send me the details so we can honor her in print and let others know of her passing.

Prayers for Red Hat Sisters Everywhere:

Not only is the world suffering a pandemic, but many people around the world have endured fires, tornadoes, floods and other catastrophes. Please pray especially for our Red Hat sisters who have lost their homes or lost loved ones during their trials.

The American Red Cross and other organizations are accepting money to help get basic needs (food and shelter) to those who are suffering. Give generously to those organizations.

Are you registered to vote? If not, go on-line to your state's Board of Elections web page to find out how to get registered.

Do you plan to mail your voting ballot into the Board of Elections? A few U.S. states already have mail-in voting only. If you do not live in one of those states, you must request a mail-in ballot. With the U.S. mail being delayed in past weeks, every day counts – so go on-line or call your state's Board of Elections to request mail-in voting. It may take a month to get your approval so do it NOW!

Once you receive your ballot, don't put it aside. Fill it out immediately and either take it to a mailbox at your local post office, or better yet, drive to the nearest election box. Locations should be available on your state's Board of Elections web site. That will guarantee that your vote will be counted.

Whether you are happy or unhappy about the current state of our union, voice your opinion by voting.

5 Myths About Sleep

Getting a good night's sleep — between 7-9 hours a night for adults — is one of the best things you can do for your health. But just like with everything else these days, there's a lot of misleading info about sleep out there. We're here to debunk the top five sleep myths — and tell you how to get more (and better-quality) shut-eye.

Myth #1: You can sleep in on weekends to make up for lack of sleep during the week.

FACT: Busy work and family schedules can wreak havoc on your sleep. This can cause you to accumulate what's commonly known as "sleep debt." But sleep researchers agree: You can't make up for lost time when it comes to sleep. One extra-long night of sleep may make you feel more bright-eyed and bushy-tailed when you wake up, but the positive effects disappear after 6 hours or so. The only way to get the full benefits of good sleep is to get 7-9 hours a night — every night. Have a bad night? Don't stress. Just shoot for your optimal amount the next night (and the next and the next).

Myth #2: Watching TV or scrolling through social media can help you fall asleep at night.

FACT: TVs and smartphones emit something called "blue light." This blue light suppresses the release of melatonin, the naturally occurring hormone that regulates your sleep. If you watch TV or use an electronic device at bedtime, it can take you longer to fall asleep. You can wake up feeling groggy even if you slept for 8 or more hours. Sleep experts recommend you avoid screens for 1-2 hours before bedtime.

Myth #3: Sleep is sleep — it doesn't matter when or where you get it.

FACT: Every person has an internal "clock" that controls their sleep-wake cycle. When your inner clock and your sleep habits don't

match up, you can experience poor performance, mental fogs, and sleepiness when you most need to be alert. People who work unusual hours (nurses, factory workers, etc.) often live out of sync with their normal body rhythm.

Myth #4: Daytime sleepiness means you're not getting enough sleep.

While it is common to feel a bit sleepy the day after a poor night's sleep, excessive daytime sleepiness — an urge to fall asleep when you should be fully alert — could be the sign of something more serious. Discuss any symptoms like these with your doctor.

Myth #5: The older you get, the less sleep you need.

FACT: This last myth may be the most common. Here's the real deal: While your sleep patterns may change as you age, the amount of sleep you need doesn't. It's the same for all adults: between 7-9 hours per night. Older adults do tend to have a harder time falling asleep. They also wake more frequently during the night. (This is especially true for women going through menopause.) So experts recommend that older adults create a solid and consistent bedtime routine — taking a warm bath, reading a book, or doing a calming yoga pose.

Red Hat Regalia

Join Diane and Doug on Facebook

<https://www.facebook.com/groups/1395418484045715/>

From Judy Litke (Editor): I recently saw, on Diane Pape's Facebook page, a photo of Diane Pape and MaryLou Jones, from Michigan, wearing blingy shirts (see below). I loved the shirt and they told me to subscribe to Red Hat Regalia's Facebook account. Red Hat Regalia no longer has their web site so, if you want another RH vendor to purchase items, join Red Hat Regalia on Facebook.

My two shirts arrived with a week. I ordered one for my pandemic weight and one for my post-pandemic weight, which I am working on losing.

Aren't Diane and MaryLou the perfect models? Follow them on Facebook too. They are funny and do so many things together. They are truly Red Hatters having fun anytime, anywhere!

I sure hope they don't mind me posting this photo!

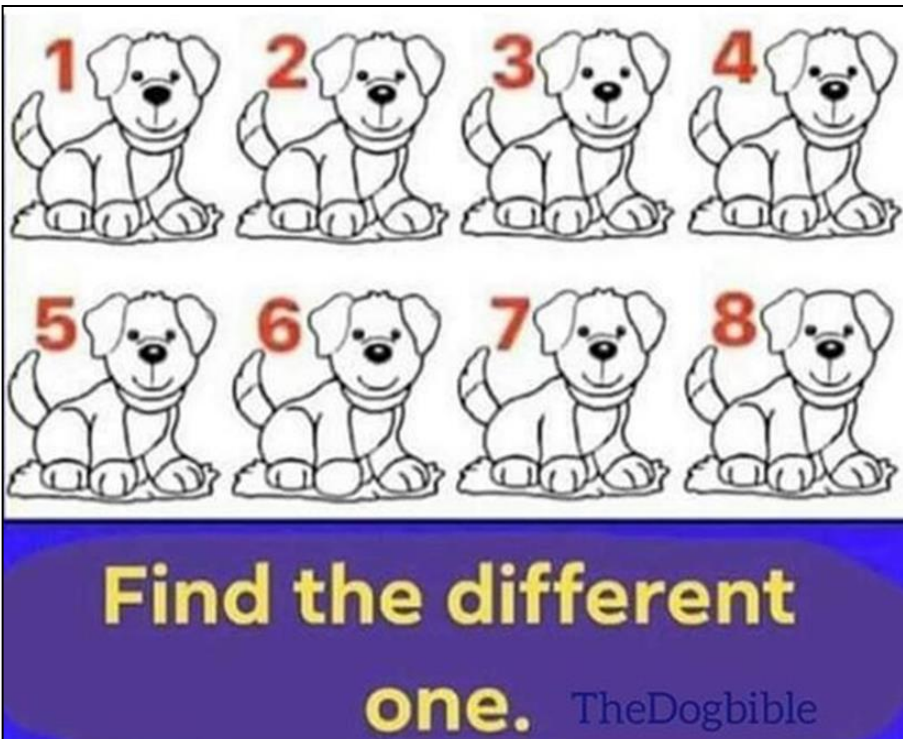

Pandemic Happenings and Activities

Red Hat Mamas of Maui:

On Aug 4, the Red Hat Mamas of Maui had a “play day in the park” .. had a great time with “social distancing” (great masks worn by my “loyal royal subjects”) ... lucky number drawing ... brown bag lunch ... singing and laughing ... no group pictures ... could not find anyone available to take our picture ! ... but we all loved it so much we plan to go back to the same park next month !! Will make sure we get a group picture to share !!

Ground Hog Day:

Does it feel like each day is like the same one before? “Ground Hog Day” was one of my least favorite movies when I first saw it. I could not wait for the movie to end. Upon watching it the second time, years later, I appreciated that the lead character used his unusual circumstances to improve himself and learn new things each day. CHALLENGE: Tell me what new things you have learned to do to enjoy life or to improve your knowledge during the pandemic. Send to me Judy Litke at moonrockB@aol.com.

Let's face it - English is a crazy language. There is no egg in eggplant, nor ham in

(continued on next page)

Nothing Better to Do So You Might As Well Read These Too!

hamburger; neither apple nor pine in pineapple. English muffins were not invented in England nor French fries in France. Sweetmeats are candies while sweetbreads, which aren't sweet, are meat. We take English for granted. But if we explore its paradoxes, we find that quicksand can work slowly, boxing rings are square and a guinea pig is neither from Guinea nor is it a pig.

And why is it that writers write but fingers don't fing, grocers don't groce and hammers don't ham? If the plural of tooth is teeth, why isn't the plural of booth, beeth? One goose, 2 geese. So one moose, 2 meese? One index, 2 indices? Doesn't it seem crazy that you can make amends but not one amend? If you have a bunch of odds and ends and get rid of all but one of them, what do you call it?

If teachers taught, why didn't preachers praught? If a vegetarian eats vegetables, what does a humanitarian eat? Sometimes I think all the English speakers should be committed to an asylum for the verbally insane. In what language do people recite at a play and play at a recital? Ship by truck and send cargo by ship? Have noses that run and feet that smell?

How can a slim chance and a fat chance be the same, while a wise man and a wise guy are opposites? You have to marvel at the unique lunacy of a language in which your house can burn up as it burns down, in which you fill in a form by filling it out and in which, an alarm goes off by going on.

Now we can understand why someone learning English has a difficult time learning it!

English is a difficult language. It can be understood through tough thorough thought, though.

Four Great Unresolved Confusions:

- At a movie theater, which armrest is yours?
- If people evolved from monkeys, why are monkeys still around?
- Why is there a 'D' in fridge, but not in refrigerator?
- Who knew what time it was when the first clock was made?

Vagaries of the English Language:

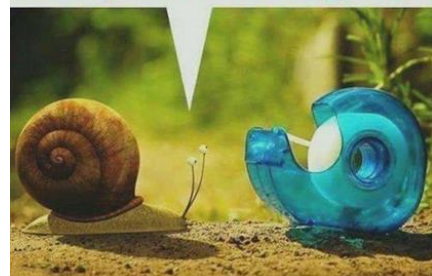

- Why does the word "Funeral" starts with FUN?
- Why isn't a fireman called a waterman?
- How come lipstick doesn't do what it says?
- If money doesn't grow on trees, how come banks have branches?
- How do you get off a non-stop flight?
- Why do we put cups in the dishwasher and the dishes in the cupboard?
- Why is it called "Rush Hour" when traffic moves at its slowest then?
- Why do they call it a TV "set" when there is only one?
- What are you vacating when you go on a vacation?

Who thinks this stuff up?

I have been in isolation toooo long!
